The MedX portable laser has one GaAlAs laser diode and a visible guide LED. The unit is lightweight with a built-in rechargeable Li-Ion battery.

REDUCED PAIN AND FASTER HEALING

Increase

- B-endorphin release
- Healing of bone and soft tissue
- Blood flow and microcirculation
- Faster healing due to high energy level in cells
- Stimulation of fibroblasts, osteoblasts and odontoblasts
- Effective treatment of nerve injuries

Decrease

- Decrease pain due to the rise in serotonin levels
- Inflammation, swelling, muscle tension, and hypersensitivity
- Reduced need for pain medication drugs

MedX Portable Laser Kit Includes:

- **Hand-held Low-level Laser**
The MedX laser provides a total of 200mW of power with one GaAlAs laser diode and a visible guide LED. Class IIIb laser.
