Therapeutic lasers
have met their match.

It's a bright new world.SM

Introducing the TerraQuant® Featuring Exclusive Multi Radiance Technology.™

Multi radiances provide the optimal parameters you need to promote accelerated pain relief and healing.

It's a bright new world. With the TerraQuant's® exclusive Multi Radiance Technology, you finally have the power you need to safely achieve outstanding results for your patients—and your practice growth.

Laser therapy has gained worldwide recognition by experts for its ability to reduce pain and advance healing without drugs or invasive surgery. The challenge for practitioners has been how to navigate the restrictions of therapeutic lasers to effectively deliver photons, or healing power, to specific treatment areas and depths without harm or risk to the patient. And just as importantly, practitioners want to know how they can grow their practice with a modality that insurance doesn't traditionally cover.

Multi Radiance Medical™ will show you how you can profit with the world's only FDA approved modality that synergistically incorporates multiple therapeutic radiances into a single technology.

Multi Radiance Technology features a unique combination of four radiances that work synergistically for optimal pain relief and accelerated healing:

1. **Super pulsed laser**
2. **Pulsed broadband infrared SLDs**
3. **Pulsed red light**
4. **Static magnetic field**

Patient care and practice growth.

With the TerraQuant's preset treatment protocols, custom treatment modes and quick treatment times, this unique technology seamlessly integrates into your current practice. And we provide the marketing support you need for quick ROI. Your assistants can be easily educated on how to administer treatment, and you'll have piece-of-mind knowing the TerraQuant has received FDA clearance for pain relief.

The TerraQuant has been used worldwide for over 20 years to treat a spectrum of indications, including:

- Acute, sub-acute and chronic pain
- Back pain
- Bursitis
- Carpal tunnel syndrome
- Arthritis pain
- Fibromyalgia
- Muscle strain
- Ligament sprains
- Tendonitis
- Tennis elbow
- Soft tissue injuries
- Skin ulcers
- Diabetic ulcers
- Edema
- Burns
- Wounds
- Many additional indications

Clinical Studies Prove the TerraQuant® Works.

Your patients want pain relief and healing without drugs or surgery. You want a solution you can trust. The TerraQuant delivers.

Double Blind Clinical Trials

Numerous randomized double blind clinical trials have showed efficacy of the TerraQuant on various health conditions.

An 88% positive effect was demonstrated in studies done on the efficacy of the TerraQuant in relieving pain caused by arthritis of small and medium joints. The clinical study involved 140 participants. There are dozens of additional clinical studies and papers available for your review at multiradiance.com. In addition to TerraQuant-specific studies, over 4,000 studies have been conducted worldwide to validate the effectiveness of laser therapy.

Practitioners and patients in over 30 countries

The TerraQuant featuring Multi Radiance Technology has enabled practitioners to successfully treat patients from professional and Olympic athletes to chronic pain sufferers. Efficacy, ease-of-use and profitability have been realized in practices coast-to-coast and around the world.

- Olympic athletes
- NBA and NFL players
- National soccer team
- Special Forces of seven countries
- Chronic pain sufferers

FDA cleared for multiple uses

The TerraQuant is FDA cleared for temporary relief of muscle and joint pain, arthritis and muscle spasm, relieving stiffness, promoting relaxation of muscle tissue and temporary increase of local blood circulation.

“ The TerraQuant has been a God send for both my athletes and me. Maybe because of age or lack of care, a knee ligament injury became chronic. After two days and six sessions on the TerraQuant, the scar tissue was reduced by 50% and the pain by 90%. Athletes have recovered from various twists, bruises, and growing pains after one to three days on the TerraQuant...it's becoming as important to us as post-training water workouts.”

– **Tom Barbeau**
*Executive Director of Athletics, Alpine Programs for the Waterville Valley Ski Academy
Three-time Olympic Coach, Former Professional Football Player
Waterville Valley, NH*

“ With my extensive experience working with chronic and acute injuries, TerraQuant is the most advanced and effective modality which I use for many world class athletes and patients.”

– **Igor N. Burdenko, Ph.D.**
*Founder and President
The Burdenko Water and Sports Therapy Institute Boston, MA*

“ I use the TerraQuant primarily for joint disease and work injuries... I like that the laser penetrates 5 inches deep. I can position one on the back and one on the hip and it goes straight through the areas for greater response and faster healing...My patients are very receptive to it.”

– **Joseph Maniscalco, DC**
*Practice
Novato, California*

“ As a mathematician trying to fit national tennis competitions into a demanding work schedule, injury prevention and rapid recovery are important to me. I first used the TerraQuant to hasten recovery of muscle, ligament or tendon strains around my knee. Since prevention is preferable to rehabilitation, I use the TerraQuant when I initially feel weakness or sensitivity in a muscle or joint. As a result, injuries have been essentially nonexistent.”

– **Molly Hahn, Ph.D**
*Winner of 3 consecutive 55 and over
Women's National Tennis Doubles Titles, 2004-06*

How Does Multi Radia

Healing with light at the cellular level.

The goal of laser therapy is to deliver light energy units, in the form of photons to damaged cells. The consensus of experts is that photons absorbed by the cells through laser therapy stimulate the mitochondria to accelerate production of ATP. This biochemical increase in cell energy is used to help transform live cells from a state of illness to a stable, healthy state.

The evolution of light therapy continues.

Multi Radiance Technology is the first of its kind to combine the entire range of the therapeutic light spectrum and deliver therapeutic energy in a synergistic manner. The syncing of the therapeutic wavelengths creates an optimal environment that reinforces the effects of the individual wavelengths to create the world's most advanced pain relieving modality.

Multi radiances deliver photons safely—right where they're needed.

The key to successful laser therapy is safely delivering a high density of photons to damaged tissue. This is where most laser devices fall short.

Limits of Class I through Class III continuous and modulated lasers.

The fixed level of power is too low to deliver an adequate dose of photons beyond the surface of the skin, making them ineffective in delivering photons to deep tissues.

Limits of Class IV continuous lasers. The increase in power of the high powered continuous wave increases photon delivery to deep tissues, but in many cases, it also increases the amount of heat generated. This heat increases the potential risk of unwanted or destructive thermal effects and damage to the retina requiring clinicians to exercise additional FDA required controls to ensure patient and practitioner safety. *With Multi Radiance Technology, there is never a risk of thermal damage.*

Multi Radiance Technology lets you safely deliver the healing power of photons exactly where you need to, depending on the needs of the indication you are treating.

When comparing technology, some laser devices may offer pulsed mode. Do not confuse them with super pulsed lasers. Unlike super pulsed lasers, pulsed lasers are created by "chopping the beam"—mechanically turning the laser on and off, much like duty cycle. Their depth is limited in comparison to super pulsed technology due to the decreased power created by the duty cycle of the device.

The four radiances of Multi Radiance Technology

- 1. Super Pulsed Laser (905nm)** produces a high power level of impulse light at a billionth of a second. It is the high power during each pulse that drives the photons, or light energy, to the target tissue, up to 10-13cm (4-5 inches) deep. The TerraQuant's high peak power of up to 25,000mW creates a higher photon density, delivering the highest concentration of photons for healing and providing the deepest tissue penetration. Super pulsed laser strongly influences pain reduction, the improvement of micro-circulation and increases cell metabolism in the form of ATP production.
- 2. Pulsed Broad Band Infrared Emitting Diodes (875nm)** penetrate shallower tissue depths than the laser but provide an overall broader spectrum, when compared to laser radiation, by gently heating the surface tissue layer.
- 3. Pulsed Red Light (660nm)** penetrates smaller tissue depth and has beneficial anti-inflammatory effects.
- 4. Static Magnetic Field** keeps ionized molecules of tissue in a dissociated stage, enhancing the energy potential at the molecular and cellular levels.

Working synergistically, the four radiances of the TerraQuant's Multi Radiance Technology create the optimal biological environment for accelerated healing and pain relief. The use of the preset frequencies, allows clinicians to control the depth of the therapeutic energy from the surface up to 13 cm (5 inches) deep.

The TerraQuant's super pulsed laser is the fastest in the world, delivering a pulse at billionths of a second. Combined with 25,000 mW of peak power, the result is a higher concentration of light energy, or photons, driven deeper into the target tissue, without the risk of damaging heat build up.

Radiance Technology™ Work?

The TerraQuant product line fits your practice needs

Multi Radiance Medical understands you and your practice are already operating at lightening speed. That's why we designed the TerraQuant product line with features that make operation simple and easy.

- Hundreds of protocols for treating specific needs are provided in an easy-to-use reference manual
- Frequencies for common indications are preset
- Optional dual transmitters enable you to simultaneously treat multiple areas
- Hands-free administration option supports your fast-paced workflow
- Easy and safe for assistants to administer
- FDA cleared for complete peace-of-mind

With the TerraQuant product line, you can choose the emitters and accessories that best fit your treatment needs. The dual transmitter option provides hands-free administration of treatments to streamline your workflow.

Compare the TerraQuant® To Leading Therapy Modalities

FACTORS	THE TERRAQUANT®	ELECTRICAL STIMULATION	ULTRASOUND
Application procedure	<i>Non-invasive</i>	<i>Adhesive pads and wires</i>	<i>Gels/creams/wires</i>
Effect on pain	<i>Influences pain source</i>	<i>Masking effect</i>	<i>Temporary, through heat</i>
Requires clinician	<i>Clinician or self-administered</i>	<i>Generally required</i>	<i>Demands clinician</i>
Treatment time	<i>3 to 15 minutes</i>	<i>Up to 20 minutes</i>	<i>5 to 20 minutes</i>
Applications per day	<i>Multiple within protocols</i>	<i>One is recommended</i>	<i>No more than one</i>
Can cause infection	<i>Stimulates healing of wounds</i>	<i>No open wounds</i>	<i>No open wounds</i>
Causes burns/damage	<i>FDA determined SAFE</i>	<i>May blister skin</i>	<i>Can overheat/damage</i>
Increases microcirculation	<i>Yes</i>	<i>N/A</i>	<i>Yes</i>
Increases lymphatic flow	<i>Yes</i>	<i>N/A</i>	<i>N/A</i>
Dangers of usage	<i>If directed into eyes</i>	<i>Heart arrhythmia</i>	<i>Destruction of tissue</i>

The Health of Your Patients Is Your Top Priority. The Health of Your Practice is Ours.

You need advanced technology that will provide non-invasive pain relief and accelerated healing for your patients. The TerraQuant® featuring Multi Radiance Technology™ is clinically proven to reduce pain and promote healing so your patients can recover more quickly from injuries and enjoy a better quality of life.

What about your practice growth?

Insurance companies are covering fewer procedures and treatments. Your expenses are increasing every year. As a health care provider, you want to offer your patients the benefits of Multi Radiance Technology—but how can you afford it? Will you receive a noticeable return on investment? How will patients pay for the treatment?

At Multi Radiance Medical, we offer affordable technology backed by a turnkey Marketing Program.

We want you to succeed—with your patient treatments and your practice growth. Our TerraQuant featuring Multi Radiance Technology offers smarter technology for the results you need, at a smarter price. You can see ROI in a matter of months, not years.

Support materials help educate patients.

Your patients want a non-invasive, drug-free alternative to pain relief and healing. Our marketing support materials will educate your patients on the benefits of the TerraQuant system in a language that's easy for them to understand.

Direct pay practices that work.

Patients, particularly baby boomers, don't tolerate the discomforts of aging. Athletes are willing to do whatever it takes to get back in the game. Consumers in general are willing to pay for products and services that make them feel better, even if that means paying out-of-pocket. Direct pay is a multi-billion dollar market. The key is implementing a pricing strategy that works. Multi Radiance Medical provides you with pricing guidelines that make intuitive sense for your patients—and your practice. You'll realize a quick return on investment, while helping your patients achieve better health and well-being.

Order your TerraQuant

featuring Multi Radiance Technology, today.

Discover how easily the TerraQuant fits into your current workflow. See the accelerated healing and pain relief your patients experience with treatments. You'll be amazed at the results, and the return on investment. And with our industry-leading warranty, you can rest assured you've made a sound investment.

Let us show you how TerraQuant can offer you and your patients a bright new world.
